

# Zuhair S A Safi

Electrical Engineering Student & Creative Media Entrepreneur

Email: zuhair@z91s3.com    Website: z91s3.com    Location: Gaza, Palestine

---

## PERSONAL STATEMENT

A highly adaptable and multi-disciplinary Electrical Engineering student combining a strong foundation in exact sciences with a formal secondary specialization in Entrepreneurship. Certified in Public Diplomacy with an advanced professional command of English, and an active track record in technical network administration, community media production, and dynamic software development. Seeking an academic mobility framework or specialized enrollment within international institutions to channel these engineering, leadership, and crisis-management competencies into rigorous scholarly research.

## EDUCATION AND TRAINING

09/2023 – Present

### Bachelor of Science in Electrical Engineering

*An-Najah National University*

- Rigorous focus on core electric circuit analysis, digital systems design, electronic power dynamics, and network infrastructure layouts.
- Conducted technical academic presentations exploring charge management, voltage-amperage properties, and engineering safety profiles in secondary storage cells.

2020 – 2023

### High School Diploma – Entrepreneurship & Business Branch

*Secondary Education*

- Specialized in business canvas modeling, financial accounting, economic principles, and small business project management frameworks.

## CERTIFICATIONS & SPECIALIZED TRAINING

Concluded 2026

### Advanced Professional English Diploma (Level B2/C1)

*Al-Salam Training Group*

- Advanced study of high-tier technical language, operational academic terminology, scientific presentation skills, and professional discourse.

Concluded 2025

### Professional Certification in Public Diplomacy

*Diplomatic Studies Framework*

- Acquired foundational expertise in regional constitutional law, cultural mediation, international communication strategies, and local historical analysis.

Additional Training

### First Aid & Crisis Management / Basic Forensic Science Studies

*Independent Professional Tracks*

- Developed hands-on knowledge in initial emergency response, safety protocols, logical evidence observation, and fast-paced operational security.

## WORK EXPERIENCE & MEDIA VENTURES

2024 – Present

### Lead Videographer, Creative Video Editor & Content Creator

*Independent Media Production & Digital Platforms*

- Direct and execute end-to-end multi-platform media asset development, including corporate branding and specialized educational visual production for early childhood institutions.
- Sustain a high-leverage digital audience under a unified professional digital handle, managing 4K active followers on Facebook and a pre-launch community of 58K followers on Instagram.
- Engineered localized off-grid workflow solutions to sustain intensive rendering pipelines and computational tasks under power grid constraints.

## KEY PROJECTS

04/2026 – 06/2026

### "The Splitfather" – Dynamic Web Application

*Lead Systems Architect & UI Developer*

- Architected, programmed, and optimized an automated algorithmic web application geared toward algorithmic multi-tier team sorting and balance configuration.
- Executed continuous agile deployment through 17 structural versions up to Version 17.1, refining execution efficiency and backend performance scalability.

## SKILLS INVENTORY

**Engineering & Networks:** Circuit Dynamics, Hardware Troubleshooting, Network Infrastructure, Router Configurations, Access Point Management, MAC Address Filtering.

**Socio-Diplomatic:** Public Diplomacy, Strategic Project Formulation, Palestinian Constitutional Law Foundations, High-Intensity Physical Conditioning & Operational Discipline.

**Tools & Languages:** Advanced Audiovisual Editing, Frontend Programming (Vibe Coding Architectures), Arabic (Native), English (Advanced B2/C1 - Diploma Level).
